PVC Pipes Extrusion Downstream Machineries Engineering

S.S. Enterprises (Previously known as Dass Engineering) is a family run company specialized in downstream machineries for plastic pipe extrusion industry since 1975.

About Company

S.S. Enterprises (Formerly known as Dass Engineering)

S.S. Enterprises (Previously known as Dass Engineering) is a family run company specialized in downstream machineries for plastic pipe extrusion industry since 1975. Our organization is recognized as one of the leading manufacturers and suppliers of Die Set for PVC Pipe, Die Head for PVC Pipe Extruder, Socketing Machine, Slotting Machine, Belling Machine, Cutter Machine, Grinder, Pulverizer & Vacuum Tank. Manufactured using high quality raw material and basic components, our product range is highly appreciated for its salient features like performance, higher efficiency, low maintenance and longer functional life. Backed by a state of the art infrastructural facility and a highly efficient team of dedicated professional, we have built a huge client base by providing latest machines.

Through our dedicated efforts, our company has earned an unrivalled reputation in the plastic pipe extrusion industry.

We Are Happy to have satisfied our clients

Our Clients

we are
happy to
have
Satisfied
our clients

Value & Vision

It is our belief that client satisfaction is the key to success for every organization.

Our sole motto is to provide utmost satisfaction to the clients by manufacturing supplying world-class products at pocket friendly prices. Our product range undergoes vigorous quality check ensure flawless delivery at the client's doorstep.

Our Products

Bottom Cavity

Die Head for PVC Pipe Extruder

Die Set for PVC Pipe

Ribbed Filter Die

Ribbed Filter Sizer

Die Head Assembly

Vacuum Sizer

Semi-Automatic Belling/Plain Socketing Machine

Industry Grade Quality

- Material used EN Grade only
- Gunmetal Grade: BS LG4 standard
- Specially Hardened Die Ring
- Collar & threads for long life
- Lifetime warranty

- Heating unit with digital temperature controller
- Electric panel for automated and smooth functioning
- Water inlet arrangement from direct water supply
- Roller stand for pipe movement-2 nos
- Stamping arrangement through pneumatic cylinder on pipe socket
- Pneumatic cylinder for mandrel plate linear motion
- Pipe cooling through water
- Socket length adjustment feature

SOCKETING MACHINE

- Reliable and accurate.
- Almost nil maintenance.
- Long pipe holding tray with easy bearing movement.
- Easy detachable and assembling arrangements.
- Best quality Pneumatic Cylinder.
- High Quality Solenoid Valve.
- Electronic Temperature Controller.
- Protection with Circuit Breaker.
- Suitable for any length of pipe.
- In-built 2500 watt Ceramic heater.
- Top rated pressure pipe with brass nipple.
- Heavy duty pressure control brass valve.
- Machine includes 75mm & 110mm die and Mandrel.
- Operation by one non/semi skilled operator.
- Model 1: for 75mm & 110mm
- Model 2: for 75mm, 110mm & 160mm

PVC Scrap Grinder

- Panel Type - Digital control with all required meters and overload protection features
- Motor power - 40 HP (Havells/Crompton Greaves)
- Chamber size - 24 Inch, Screen Hole size - 10/12 mm
- Cooling jackets for water flow
- Blade material - HCHCr, No. of blades - 10 nos, Blade length - 6 Inch
- Direct full length pipe feeding facility
- Output- 200 Kg per hour approx.

SLOTING MACHINE

- Reliable and accurate.
- Almost nil maintenance.
- With 5 hp 3-phase CG motor and starter.
- Gunmetal bush.
- Long life shaft.
- With one set of cutter and one set of spacer.
- Different clamps for different pipe dia.
- Suitable for 3 mtr./6 mtr. Pipe.
- Operation by one non/semi skilled operator.
- Dimension: L-36"x W-24" x H-55".

PVC Pulverizer

- Main Motor Power-40 HP (Havells/Crompton Greaves)
- Star Delta Digital Control Panel with all required meters and vibrator controller
- Chamber size-24 Inch
- Screen hole size-3 mm
- Cooling jackets for water flow
- No. of beaters-6, MOC-EN series, Beater length-6 Inch
- Vibrator type feeding system
- Input particle size upto 12 mm
- Output-200 Kg per hour approx.

PVC DISC PULVERIZER

- High output with low power consumption.
- Microprocessor based power control system
- Less manpower requirements
- Includes dust collection system
- Motor power-20 HP, 40 HP (Havells, Crompton Greaves)
- Output capacity-100 kg/hr, 200 kg/hr
- Disc size-300 mm, 400 mm
- Bearings-SKF
- Grinding disc of special materials for longer life
- Efficient water cooling system for the mill body, grinding disc and bearing housing

PVC, CPVC, HDPE SCRAP GRINDER

- Crushing Chamber size depending on model number
- Crushing Capacity Kg/hr : 100-1200 Kg/hr (depending on model number)
- Rotating blade & fixed blade material - SKD11 German material
- Motor capacity depending on model number
- For all type of material plastic material like PVC, CPVC, HDPE
- Low noise
- Low maintenance
- Compact size

Semi-Automtic SWR Socketing Machine

- Control panel for smooth functioning with temperature control through thermocouple
- Internal and External heater for pipe heating capacity 2.5 KW
- FRL unit for safety of cylinders, air flow controller
- Internal air chamber for air storage for maximum air pressure to cylinder
- Pipe roller stand-2 nos
- Pipe cooling through air & water (through mold cavity in 2 nos blocks)
- Pressure control valve for air pressure setting
- Pipe ejector system up to 160 mm for easy operations
- All pneumatic cylinder and fittings make-Janatics

Manual Belling Machine

Using cutting-edge technology, we are manufacturing and supplying flawless range of Pipe Belling Machine. Owing to greater efficiency and long lasting performance, our PVC Belling Machine finds its application in various industries and sectors. Supported by a team of efficient professionals, we have been able to present a wide array of PVC Pipe Belling Machine at affordable price range to our valued patrons.

We are leading belling machine manufacturer, where we provide these machines in different dimensions, sizes and grades to meet the client's requirements and specifications.
